

GraceKids FAQ Covid-19

What additional steps are we taking during Covid-19?

- Before kids, team members, or staff enter GraceKid's rooms, they will have their temperature checked
- We encourage families to send only one parent into GraceKids for drop-off and pick-up to limit traffic in hallways
- All non-essential items from home, like toys, will need to stay with the parents
- We are sanitizing surfaces and toys before, between, and after all services.
- Team members will wash hands often.
- While under a mask mandate - we are supplying team members with clear face shields so they can still be seen and relatable to kids.
- Should we learn of a Covid-19 case within a class we will contact all families and team members from that specific class meeting to inform them. The next step taken after communication will be taken to the families and team members.
